Hi Sara,

I was unable to get the document to open in sharepoint and it only gave me the option to download. Not sure why cause it's never done that before. I had one edit which I incorporated here. We don't need to say "The Honorable" unless we're addressing the letter to the chairman.

Hi Jason –

I included you on the routing chain of the **Ex. 7(A)** Request in eConcurrence so that you could review the tribal contacts to make sure we've included everyone we should on the correspondence. You should have received a notification from SharePoint last week asking for your concurrence. Can you take a look at the document and review/approve at your earliest convenience? If you didn't receive the email with the link to the document, let me know.

Thanks,

Sara

Please ensure that the TAP approver you originally specified for this document is present to concur on your document. If he/she will be out on extended absence, check if you can designate an alternate to concur on your document to keep it moving.

If selecting an alternate is an option, go into the concurrence tracking SharePoint table and change the designated reviewer. The workflow will automatically reroute the task accordingly.

If designating an alternate reviewer is not appropriate at this time, the workflow will continue to wait for the current point of contact to return.
